Hello,

The updated file, with data for November, is attached.

Please let me know if you have any questions.

Joe

Good Morning Whip,

Unfortunately with the current surge in cases and data processing changes going into effect today the team will need an additional day to finalize the report. Apologies and they will get to you as soon as possible.

On another note Diane Pelletier from our office let me know you had some questions about MABS at a recent LTCC meeting. We are currently limited by the amount of treatments allocated to us by the federal Government. In terms of accessibility we are working to get 5 new providers up and running. We are also trying to set up another centralized location that could do 30-50 treatments/day but this will still likely not be enough to meet demand with the surge in cases.

As always happy to discuss more,

NPH

Neil and team,

Just a reminder on the data I'm expecting this morning.

Respectfully, I remain proudly at your service,

Hi Whip,

Hope all is well. The team is doing some historic data clean up that will go into effect on Monday. **I asked the team to wait and send this first thing next week to ensure that the data is as consistent across the board as possible.** Sorry for the delay.

I am including *Joe Brennan* on this thread since he likely be the one to deliver the report to you as soon as its ready.

Best,

NPH
